About me

I am a Computer Systems student at ITB STIKOM Bali and a data science enthusiast. With the skills I have acquired through both my university education and self-directed learning, I am confident in my ability to develop projects that can benefit various communities and industries

Education

Institute of Technology and Business STIKOM Bali

2023 - now

Computer System

Experience

- **Capstone Project Dicoding Bootcamp Batch 8**

2025

Participated in Dicoding Bootcamp Batch 8 under the Machine Learning module. Collaborated in a team to build a capstone project focused on agricultural technology, developing a deep learning CNN (Convolutional Neural Network) model to detect rice leaf diseases from image data

- **Content Creator**

2025 - now

Content Creator at TikTok (@furiousjock), making basic statistics simple, engaging, and easy to understand for everyone

- **Indoneris Data Mining Competition**

2025

Performed Exploratory Data Analysis (EDA) and data preparation on a panic disorder dataset to ensure optimal compatibility for machine learning model training during the Indoneris 2025 Data Mining Competition

- **Freelance Web developer**

2023

I create websites for clients such as birthday invitation websites or special events.

Ability

- Python (Pandas,Numpy,Matplotlib,Sklearn,keras)
- Data Analytics
- Machine Learning (Regression,Classification,Clustering)
- B2 English based on CEFR

- Deep learning (ANN,CNN,RNN)
- Web Programming
(HTML,CSS,Javascript,PHP,SQL)
